

Projects

United Co-Op, Sandbrook Park, Rochdale, United Kingdom

The largest regional Co-operative society; United Co-operatives Ltd, moved to new headquarters in Rochdale during the summer of 2003.

Looking for external lighting with a difference, rather than the standard floodlighting solution, Juno contemporary pole top luminaires were chosen. The ability to have pole mounted luminaires for the car park area and matching wall mounted versions around the building gave an overall co-ordinated image to the site.

Juno contemporary pole top IP 66 luminaires offer lamp versions from 57watt TC-T to 250watt MBI-T with a choice of styles and colour finishes.

..... *building on our experience*
