

Projects

Ho-Ping Power Station, Taiwan

2 x 660MW coal fuelled power station built on the north-eastern coast of Taiwan.

Needing reliable quality products able to withstand the tough conditions of this coastal site and the ability to fulfil a project of this size, Alstom turned to Thorlux Lighting.

The complete site was supplied with Thorlux lighting products, from the interior office lighting to the heavy duty industrial hazardous area high bays and bulkheads used in the coal domes.
