Arcadian

Ligature-resistant luminaires

Arcadian is a discreet, ligature-resistant lighting solution. This circular wall- or ceiling-mounted LED luminaire is supremely impact-resistant and has been designed for both internal and external use.

Arcadian is constructed from a strong spun-steel body and a 5 mm thick, flame-retardant polycarbonate cover. SmartScan Radar, integral nightlight, and maintained emergency versions are also available.

Applications: mental healthcare, custodial, internal car parks, and associated walkways and staircases.

- Ligature-resistant design
- Anti-pick sealant can be used to seal the body whilst still allowing the cover to be removed for maintenance
- Tamper-resistant T25 pin Torx screw fixings
- Integral night light option
- SmartScan wireless technology removes the need for control cabling. Ideal for retro-fit

Notes: Finished white (RAL 9010) as standard. Other colour options are available to special order.
