Brink

Stainless steel illuminated handrail solutions for internal and external lighting applications

Brink is a range of bespoke illuminated handrails that combines lighting and safety for internal and external applications.

Manufactured in 316-grade stainless steel, Brink handrails are beautiful, stylish, robust, and corrosion-resistant. With six rail styles, four installation methods, and finish options including polyester powder coating in any RAL colour, there is a Brink handrail for every application.

Applications: internal and exterior stairwells for rail, education, healthcare, leisure, and commercial.

Thorlux can provide a comprehensive survey service to ensure the project is delivered smoothly and accurately. Contact our dedicated handrail team at brink@thorlux.co.uk

- Six rail styles, four installation methods and a variety of finish options
