Firefly Surface

Surface-mounted emergency luminaires with $LiFePO_4$ battery technology

Firefly Surface is a surface-mounted, IP65-rated emergency luminaire with five optical distribution options for illuminating points of emphasis, escape routes, and open areas (anti-panic).

The Thorlux Firefly Surface features Lithium Iron Phosphate ($LiFePO_4$) battery technology backed by a 10-year product warranty. SmartScan wireless communication versions are available with 3 W or 4 W power output options. It has been engineered for easy installation and maintenance.

Firefly Surface achieves a 29% reduction in total embodied carbon, reduced energy consumption, and a doubled life expectancy compared to the previous model.

Applications: industrial and commercial environments, education, healthcare and retail.

- Product warranty of up to 10 years
- Next-generation optics for optimised light distribution
- Reliable Lithium Iron Phosphate (LiFePO4) battery technology
- Robust and durable construction
- SmartScan Emergency - Wireless communication, simple to install, automatic testing and full status reporting versions
- Low standby power consumption (< 1 W total)

Notes: It is a legal obligation to provide emergency lighting in all premises used as a workplace, entertainment venue, leisure facility, or communal residential property.
