Medi-Sign

Single-, double- and triple-message LED illuminated signage range

The customisable Medi-Sign is a single-, double-, or triple-message illuminated LED signage range, suitable for a wide range of purposes.

Medi-Sign features a slim, sleek, and discreet body design, manufactured from zinc-plated steel with a white body finish and rated to IP20. The custom full-colour acrylic legend panels are available by special order and can be used to display any message, information, or warning; artwork design templates are available on the Downloads tab above. Each section of the luminaire is separately switched, requiring a dedicated mains power feed.

Applications: medical, healthcare, education, and retail.

- Extremely long LED lifetime, up to 100,000 hours
- Semi discreet legend panel when off
- Separately switched sections require a dedicated mains feed to power each section
- Custom legend panels available to special order
- Slim and sleek design

Notes: Body and legend ordered seperately - See 'View the range' for legend options or for triple legends please contact Thorlux sales department to confirm artwork
